	wire fence on concrete poles. Sentries patrolled on the inside of this fence. The northwestern section of the field and the other borders could not be observed. The landing field was covered with gress. Plack humus was observed along the southwestern edge. Flight obstacles in the vicinity of the field probably, were the church tower and the rill in Toekoel and a factory in Szigetszentmiklos (Q 42/H 40).		
4,0	The following notor vehicles were observed near Kenyeri airfield at about 6 p.m. on 7 July: Ar old 3-ton ZIS truck with an 250 open and empty superstructure, just south of Kenyeri (P 48/Y 00), on the good which extends from the contract truck of the superstructure.	(1	
	road which extends from the southeast toward Kenveri. A Soviet driver was in the truck. Another 3-ton truck with driver wearing black-35	(1	
	bordered blue epaulets, was observed at the point where the approach road	(1	
	from the airfield meets with the main road which leads from Kenyari to the		
	southeast. There was also an old red ZIS tank truck		
	with a Soviet driver, on the main road toward the northwest just north of Czelldoemoelk (P 48/D 19).		
	OSSTIGORNOSTY (L MO/D 14)		
5 .	stated that jet aircraft of the Hungarian		
	Air Force were temporarily stationed at Budapest-Ferihegy (2 48/H 61)		
	airfield.		
1.	Comment. Toekoel airfield 25>	(1	
	is occupied by Soviet Air Force details charged with the distribution of		
	MiG-15s which arrive from the USFR via Kunmadaras. Also with the re-		
	training of Hungarian pilots in jet fighters. The airfield is also believed		
	to be occupied by a Hungarian Air Force unit, probably a training unit.  The information on the size, location and status of the airfield agrees with		
	previous reports 25)	(1	
		` '	
2.	Comment: According to available information and the present report, kenyeri airfield is occupied by a Soviet Air Force unit. The type of the		
	unit has not been determined.		
3.	Comment. According to available information, Ferihegy airfield is not occupied by a Hungarian jet fighter unit. It is, however, believed possible that Hungarian jet units are temporarily stationed there.
